Dev Tools:

Visual Studio Code, Atom, Git, GitHub, Figma, npm, Netlify, Linux, & Adobe Photoshop.

Experience

CONNEKT STUDIO   View

- Dates of employment (2021 – 2024)

Co-founder of Connekt Studio, where I contribute to product development by designing UI/UX, building frontend interfaces, and managing marketing efforts. I oversee the progress of both design and development to ensure functional and user-friendly digital solutions. My role also involves tracking project timelines, ensuring deliverables are met on schedule. Additionally, I help define the studio's strategic direction and growth through marketing and business development initiatives.

#100DaysOfCode   View

- Consistently working and learning experience.
- Leaned HTML5, CSS3 and Vanilla JavaScript more deeply.
- Got better at time-management, tracking, setting my priorities and goals.
- Maintaining GitHub Repository.
- Got professional projects making and maintaining skill.
- Made some really cool projects also my portfolio.

Certifications

Responsive Web Design Certification - FreeCodeCamp.org
